

LightRules® Mobile

Take control of your lighting system.
Anytime. Anywhere.

Simple

LightRules Mobile features intuitive screens and controls, enabling easier, faster activation of facility lighting profiles from a mobile phone or tablet. Maintenance? Inspection? Unscheduled event? No problem.

Convenient

Adjust light levels from anywhere using a mobile device to optimize lighting conditions for productivity, comfort or safety, as unique facility needs arise.

Adaptable

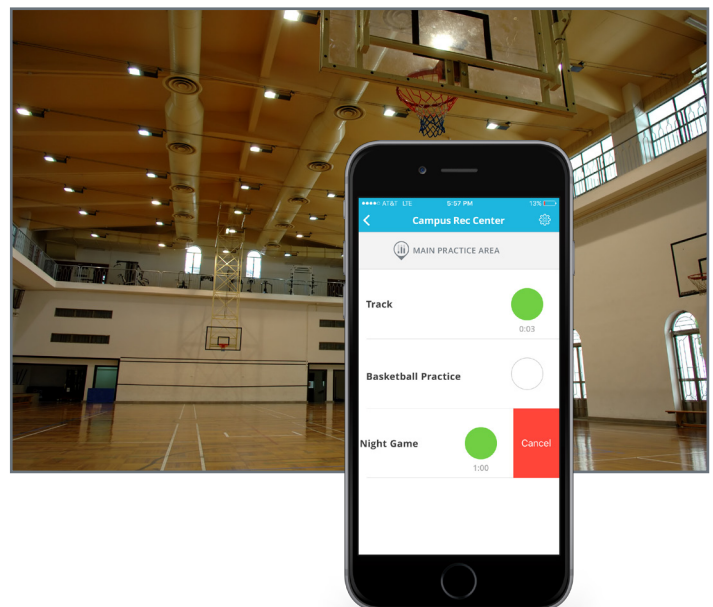

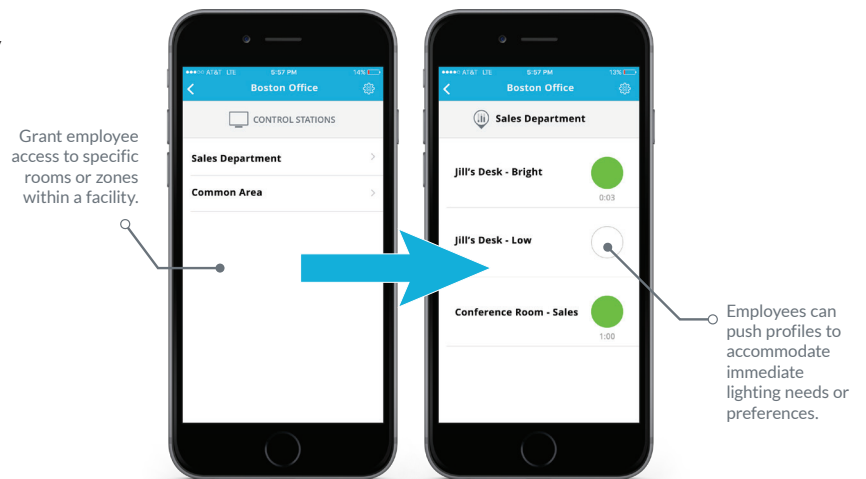

Integrate LightRules Mobile across a variety of applications and environments, including commercial and industrial buildings, sporting arenas, office buildings, and more.

Controlled

Define access for desired users within specified areas in a facility using controlled profiles and role-based permissions.

REQUIREMENTS:

- Available on iOS and Android devices
- LightRules Appliance running LightRules 2.12 or later
- Active subscription to the LightRules® Software Maintenance & Support plan
